

EcoDirect offers battery boxes, racks and enclosures for off-grid energy storage applications in solar PV systems. These products support the most common battery types.

Find exactly what you need in our extensive collection of lithium battery packs for solar containers, and narrow down your options by speaking with one of our experts!

The 18Ah Solar battery pack is a waterproof lithium iron phosphate battery (LFP) with an integrated MPPT charge controller and mounting rails.

Create packs using new or existing lithium cells, adjust capacity & voltage, and visualize your configuration instantly. Perfect for DIYers, engineers, and battery enthusiasts!

When you have a battery that is damaged or showing signs of failure, what do you do? You can utilize this portable solution for a safe way to mitigate your risks instantly.

The content covers cell format selection, series and parallel configuration design, battery management system implementation, and safety compliance requirements. All essential components of a lithium ...

“Big Battery made converting our 48v lead acid EZGO cart to lithium a breeze. Our cart is lighter, faster and the range went up dramatically using just a single Falcon Elite battery.

Discover high-quality lithium battery storage bags built to contain fires and explosions. Versatile solutions for all your battery needs.

Our battery packs are tested under the condition of 0.5C charging ratio of 100% depth of discharge (DOD). If we use a 0.25C charging ratio, our battery packs can reach more than 6000 cycles.

Our UN approved Lithium Battery packaging is suitable for the shipment of Lithium Ion and Lithium Metal Batteries via any mode of transport. Our lithium battery kits include: 4DV Plywood Boxes, ideal for ...
