

With a robust capacity of 2.5 kWh, this advanced battery module leverages cutting-edge CATL technology, ensuring reliable performance for your home, business, or off-grid applications.

Battery Module, 2.5 Kilowatt-Hours, Lithium-Ion Phosphate (LiFePO4), 90% Depth of Discharge (DoD), Warranty: 10,000 Charge Cycles or 10 Years, UL 1973.

2.5 kWh Battery System is a compact energy storage solution designed for small-scale applications. It provides reliable backup power, supports renewable energy integration, and ...

No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank. The built-in optimizer independently manages each ...

It is perfect for installation on an RV, boat, or camper and helps buying and setting up a complete off-grid solar kit simple, quick and easy. The Off ...

The Renogy 2500 WATT 48 VOLT Monocrystalline Solar Kit is the power solution for owners with tiny, mobile, small remote, and even semi ...

Browse solar batteries rated to deliver 2 kilo-watt hours kWh per cycle.

The LBT24100 is a high-efficiency 25.6V lithium battery, offering 2.5KWh capacity, high discharge rates (100A max), and a long cycle life of 6000 ...

The BigBattery 24V Husky 2 is a high-capacity, lithium iron phosphate battery built for serious off-grid, backup, and mobile power systems. With 2.5kWh of storage per unit, the Husky 2 is ...

ST2752UX by Sungrow provides high efficiency, proven reliability, and advanced features to meet diverse clean energy needs.
