

## **200kW Industrial Server Racks for Mountainous Areas**

Modular rackmount servers for enterprise data center workloads, available from 1U to 5U and supporting AMD, Intel x86, and ARM processors for scalable, reliable performance.

The CHx200 is a rack-based CDU, built for the needs of today's most demanding HPC and enterprise server requirements. Capable of managing 200 kW of heat load in a remarkably small 4U of space, ...

MartinEnclosures features server racks, server cabinets, server enclosures and cable management solutions custom designed for industrial businesses.

Explore our high-performance rackmount servers designed for military, industrial, and commercial harsh environments. Visit our site to learn more.

Whether you're operating in a chemical processing facility, the scorching desert sun, wind-blown sandstorms, heavy rain and thunderstorms, or freezing snow-covered mountain sites, NEMACO(TM) ...

By enabling 200 kW within a single rack, operators can concentrate compute into significantly smaller footprints. Instead of spreading capacity across dozens of low-density cabinets, ...

We offer the most flexible cabinet and rack solutions designed to meet the needs of the most demanding environments. With the most frame styles available in either tubular steel, aluminum, or sheet metal, ...

Whether you need server racks for a data center or a wall mount rack enclosure for a wiring closet, Tripp Lite has what you need in our wide inventory of rack enclosures.

GRC (Green Revolution Cooling) has launched a new immersion cooling design for extreme-density computing that can support up to 200 kilowatts (kW) of server capacity.

The Eaton Tripp Lite series of industrial-grade server racks and cabinets are designed to provide robust and secure housing for IT equipment in challenging environments. These cabinets are ...
