

This integrated cabinet combines power modules, batteries, cooling, fire protection, and smart energy management in a single rugged unit. This all-in-one outdoor ESS merges power, batteries, and safety ...

Various operating modes are standard, covering the full range of applications for microgrids. Supports parallel grid switching to meet the needs of different scenarios.

The Air-cooled C&I (Commercial and Industrial) Battery Energy Storage System (BESS) Cabinet is a versatile energy storage solution designed for a wide range of users across various industries.

This compact yet powerful energy storage commercial solution provides a versatile building block for distributed energy systems, EV-ready microgrids, and backup-critical operations.

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.

Experience the ultimate power solution with Hootrum's CO50K-100E (50KW, 100KWH) Commercial Energy Storage Systems. Engineered for versatility and safety, our all-in-one ESS is perfect for ...

Enhance your C&I energy storage applications and small to medium-sized microgrids with the cutting-edge ESS outer cabinet solution. Our modular inverter, the 50kW PAC50DP equipped with 3 MPPT, ...

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO₄ battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

Equipped with advanced LFP battery technology, this 50kw lithium ion solar battery storage cabinet offers reliable power for various applications, including commercial and industrial energy storage, ...

The HUA POWER 50kW/100kWh PV + Battery ESS is a fully integrated, all-in-one energy storage solution designed for industrial, commercial, and microgrid applications.
