

This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) capacity for critical ...

Argentina's landmark AlmaGBA Initiative presents a replicable model for enhancing grid resilience through commercial & industrial (C&I) storage. It outlines financing mechanisms & policies ...

The Argentine battery energy storage market is poised for substantial expansion in the foreseeable future, propelled by the escalating integration of renewable energy sources and the ...

Argentina's energy system, much like a overworked tango dancer, keeps stumbling when the heat is on. But here's the twist: the country is now charging toward energy storage solutions like ...

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...

It is part of a trend toward distributed and grid-scale energy storage across Latin America; the technology is increasingly used to fill supply shortages and facilitate the integration of renewable ...

Argentina's electrochemical energy storage market is in its early stages but is poised for rapid growth, driven primarily by lithium-ion battery systems. The market is fueled by the...

Aimed at enhancing grid reliability in the metropolitan area of Buenos Aires (AMBA), this \$500 million initiative marks one of the country's most significant moves toward integrating large ...

Until just a few years ago, talking about energy storage in Argentina was little more than an expression of intent. Today, that opportunity has moved beyond an abstract promise and has ...

The Argentinian Ministry of Energy has launched the "AlmaGBA" Battery Energy Storage System (BESS) tender, aiming to deploy 500MW (4-hour duration, totaling 2GWh) to address ...
