

How are outdoor athletic facilities designed?

The basic tool used for the design concept of the outdoor athletic facilities is a grid system combined -and in contradiction- with a zig-zag line-a polygonal chain that defines the boundaries of the campus plot. This chain is expressed as a continuous line of concrete tribunes and benches.

What are the new athletic facilities in New York City?

The new athletic facilities include among others a running track, high jump, long jump, shot put, tennis, volleyball, handball and basketball courts, tennis training wall, bouldering wall, outdoor exercise areas, and slackline. Save this picture! Save this picture!

Who designed and redeveloped the athletic facilities?

The existing main building was designed by the German architect Hans Graf Praschma and the detailed design and supervision was conducted by Greek architect Pavlos Mylonas. By renovating and redeveloping the athletic facilities, the goal is to enhance the overall experience for students and athletes.
