

Will Bolivia build a lithium battery plant in China?

La Paz (AFP) - Bolivia said Tuesday it had signed a \$1 billion deal with China's CBC, a subsidiary of the world's largest lithium battery producer CATL, to build two lithium carbonate production plants in the country's southwest.

Could Bolivia finally untap its lithium resources?

Credit: Courtesy of psyberartist. Bolivia finalised a major deal this week with China's largest battery producer CATL and largest cobalt miner CMOC in a move that could finally see the South American country untap the full potential of its huge lithium resources.

Can Bolivia tap the world's biggest lithium deposits?

Salar de Uyuni. Stock image. Bolivia is stepping up efforts to tap the world's biggest lithium deposits, readying deals with new investors to build processing plants despite low prices and growing opposition from lawmakers and citizen groups.

Where are Bolivia's lithium plants located?

Bolivia's state-owned Bolivia Lithium Deposits (YLB) said the plants -- one with an annual capacity of 10,000 tons of lithium carbonate and the other of 25,000 - would be situated in the vast Uyuni salt flats. Lithium, nicknamed "white gold," is a key component in the production of batteries for electric vehicles and mobile phones.
