

This PEM-based fuel cell solution is tailored for intelligent transportation systems (ITS), roadside cabinets, and other high-availability infrastructure requiring dependable and renewable power. HyMax enables ...

You can equip your solution with either one or two fuel cells, according to your power demand.

The N-Series is EFOY hydrogen fuel cell solution for the higher power range in indoor applications. The H?Cabinets of the N-series are designed for indoor applications.

EFOY H?Cabinets are ideally suited to replace conventional diesel generators and to switch to emission-free hydrogen energy solutions. The EFOY H?Cabinets are available in either indoor or outdoor applications.

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative base station energy ...

A BESS cabinet (Battery Energy Storage System cabinet) is no longer just a "battery box." In modern commercial and industrial (C&I) projects, it is a full energy asset --designed to reduce electricity costs, ...

UK-designed hydrogen & battery enclosures by Rainford Solutions - secure, weatherproof cabinets for EV, fuel cell, and energy storage systems.

Cutting-edge Technology Integration: Huijue Energy Cabinet incorporates the latest advancements in energy storage, featuring high-performance batteries that ensure efficient operation and long lifespan.

The X-series hydrogen cabinets with individual pressure cylinders or cylinder bundles have proven their efficiency for an easy replacement in the field. The H?Cabinets can be configured with an extension for a larger ...
