

Arthur Deakin Director of Energy Practice AMI With transmission ...

The newly commissioned phase, known as Gabriela, incorporates 272 MW of solar PV capacity and 1.1 GWh of lithium-ion battery storage, enhancing the project's ability to deliver ...

Arthur Deakin Director of Energy Practice AMI With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage ...

Three utility scale battery energy storage projects co-located with solar plants were announced last week in Chile. Enel is building a 67 MW/134 MWh battery, while CJR Renewable and ...

AES Andes, part of US-based energy company AES, has started construction on two major renewable energy and storage projects in Chile's Antofagasta region. The Pampas and ...

Chile has the potential to run exclusively on renewable generation, with an estimated energy mix of 46% solar, 31% wind, 12% hydroelectric, and 8% flexible natural gas power plants, as ...

Energy company Generadora Metropolitana--owned by Chilean developer AME and France's EDF--starts building Dune Plus, a large-scale energy storage and solar PV complex that ...

Andesvolt is a Chilean manufacturer that specializes in Battery Energy Storage Systems (BESS) using lithium-ion batteries, designed for applications such as backup power and renewable energy integration.

Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO2. In March 2024, BESS Coya, the ...

ENGIE obtained approval from the National Electricity Coordinator (CEN) to start commercial operation of BESS Coya, the largest battery energy storage system in Latin America to ...

Chile has taken a significant step in the development of clean energy with the inauguration of the largest battery energy storage system (BESS) in Latin America. This milestone marks a pivotal moment in ...
