

The recurring blackouts in Cuba are not random accidents; they are the clearest evidence of a grid that is stretched to its limits. In September 2025, the island's national grid collapsed once again, leaving ...

From 18 to 22 October 2024, a total nationwide blackout occurred due to the failure of the Antonio Guiteras Power Plant. During the October shutdowns, the Cuban government announced energy-saving measures.

Residents of a small coastal Cuban town face severe hardships despite living near energy sources. Santa Cruz del Norte experiences daily blackouts and fuel shortages, forcing people to cook with coal and ...

The island-wide outage, which hit just after 9am local time on Wednesday, is believed to be linked to a malfunction at one of Cuba's largest thermoelectric plants, the Ministry of Energy and...

Cuba's energy crisis is causing widespread power outages due to outdated plants and a fragile grid, impacting daily life and nearing total failure.

A series of interruptions to the nationwide electrical service of Cuba occurred during the months of February, March, October and December 2024. The blackouts began in February 2024 with power outages that affected nearly half of the country. In March, further blackouts caused widespread protests. On 5-6 October, a third of the country experienced outages. From 18 to 22 October 2024, a total nationwide blackout occurred due to the failure of the Antonio Guiteras Power Plant. During the Octob...

Cuba has been plunged into a nationwide power blackout, marking the second such island-wide outage this year amidst ongoing struggles with its ageing infrastructure and fuel shortages.

For the past three months, Santa Cruz del Norte had electricity while most of Cuba was hit with constant outages stemming from aging infrastructure and fuel shortages at power plants.

Power was restored Thursday to eastern Cuba after an electricity grid failure plunged three provinces and part of a fourth into darkness the previous evening, authorities said.

Cuba's electrical grid is increasingly unstable and there have been multiple nationwide power outages since October 18, 2024. The electrical system remains vulnerable and additional regular outages ...

Power outages, empty gas stations and runaway inflation: As the US vows to force regime change in Cuba and blocks oil supplies to the island, families are improvising as best they can to weather ...
