

Norwegian renewables developer Scatec has received the cabinet's approval to proceed with a major hybrid solar and battery storage project in Egypt, which can produce 100 megawatts ...

With a total project cost of over USD 700 million, the project comprises a 1,000 MW solar PV plant combined with a 600 MWh battery energy storage system (BESS) in the Aswan Governorate, Egypt.

The funds will contribute to the equity commitments required for the construction of a 1 gigawatt-alternating current (GWac) photovoltaic solar plant and a 200 MWh battery energy storage ...

AMEA Power, a renewable energy developer headquartered in Dubai in the United Arab Emirates (UAE), in August announced a 300-MWh battery energy storage system (BESS) had ...

Dubai-headquartered, MENA-focused renewable energy company Amea Power has announced the successful financing and the start of construction on a giant solar-and-storage project ...

Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD-denominated 25-year ...

CEO Terje Pilskog expressed pride in initiating Egypt's first hybrid solar and battery storage project, emphasizing the company's commitment to supporting the country's renewable ...

According to the agreement, the project will be advanced in two phases across different regions of Egypt. The first phase involves building a new 200MW solar power plant with a supporting ...

The first phase of Norway-based Scatec ASA's 1-GW Dandara Solar Energy Project in Egypt which is located at the same place a with battery storage, is expected to enter construction ...

Chinese renewable energy group Sungrow Power Supply plans to build an energy storage battery factory in Egypt, the Egyptian presidency's spokesperson announced in a statement ...
