

Why is energy investment important in Bangui?

With only 35% of people having access to electricity in the city of Bangui, 8% in main provincial towns, and just 2% in rural communities, scaling up investments in the energy sector is thus imperative to ending poverty while promoting growth that is sustainable and climate resilient.

Who owns Bangui Bay wind power?

The wind power produced at Bangui Bay was bought by the Ilocos Norte Electric Cooperative (INEC), which covers 23 municipalities and Laoag City. The power generated at Bangui Bay makes up 40% of INEC's total requirement. NorthWind operates the wind power generation plants along the scenic coast of Bangui, Ilocos Norte.

Will a large solar plant in Bangui help other countries?

Residents in Bangui used to face up to 16 hours of load shedding with health facilities, schools, and shops with no electricity. Now they will have much greater access to power, driving productivity and job creation. The commissioning of such a large solar plant in CAR provides hope for other countries.

How many wind turbines are there in Bangui Bay?

Phase I of the NorthWind power project in Bangui Bay consisted of 15 turbines, each with three 41-meter blades. The wind power produced at Bangui Bay was bought by the Ilocos Norte Electric Cooperative (INEC), which covers 23 municipalities and Laoag City. The power generated at Bangui Bay makes up 40% of INEC's total requirement.
