

Typical applications for EDSX, EDS and EFS control stations include industrial areas where the atmospheres may contain hazardous gases and/or dusts. A wide range of models are available to ...

The Larson Electronics EPCS-ESTP-2XPL-RG Explosion Proof Control Station is suitable for busy operations in hazardous locations. Featuring three drilled and tapped operator holes, the unit ...

XYExAP Explosion-proof Wireless Base Station The XYExAP Explosion-Proof Wireless Base Station is a product developed for wireless local area network applications in explosive and hazardous ...

From selecting the right 4-5-watt handheld radio to implementing a complete hazardous area communication system, our team ensures you get the reliable, spark-free communication you need.

Demands and requirements: Radio equipment and wireless solutions are more and more common for mission-critical voice and data communication in hazardous areas like oil platforms, FPSO vessels, ...

Utilizing explosion proof slave speakers, Talk/Back units are very useful in hazardous areas where hands-free communication is required, and Talk/Back systems are ideal in applications such as land ...

DWEx explosion proof call station is the subscriber equipment to use at industrial sites and transportation infrastructure within the digital Intercom and PA/GA communication system Armtel DCN.

The Explosion-proof IP Intercom Station is built to last with a high-quality Stainless Steel panel, IP68 protection, perform intelligibility even in case of harsh environments.

Featuring explosion-proof, dust-proof, and waterproof capabilities, they ensure clear and reliable voice communication in the most challenging conditions, such as flammable and explosive areas.

Volume for voice and signal levels are easily adjusted on the keypad. Each station is constructed with a heavy duty, corrosion-resistant cast aluminum and a powder coated aluminum faceplate, equipped ...
