

Explosion-proof uninterruptible power supply model

750VA-6X-10C-V1 comes with 10" of line-in cord with an explosion proof cord cap. Cord cap options include 5-15P or 5-20P. This explosion proof unit is compatible with surface-mount requirements. ...

The iUPS101 uninterruptible power supply (UPS) system is certified for use in ATEX and IECEx Zone 1 and Zone 2 hazardous areas.

The Vertiv Liebert®; ITA2 UPS delivers economical, efficient, and reliable three-phase power for critical loads from 5 to 40 kW, and up to 80 kW with parallel systems.

When maximum system availability is required in hazardous regions, R. STAHL's modular UPS system enables unique solutions to be designed to ensure the system's uninterrupted power supply.

The iPS1200EX explosion proof Zone 1 & 2 Uninterruptible Power Supply supplies a reliable and stable supply voltage to critical control & instrumentation systems in Zone 1 & 2 hazardous areas and ...

The PDSiUPS200 is designed to be either wall or pole mounted, is IP66 rated and made of 316L stainless steel making the rugged enclosure suitable for installation in potentially explosive, harsh, ...

Discover explosion-proof 24 V power supplies, add-on modules, and DC UPSs for Ex zone 2: SITOP Ex devices for occupational health and safety.

STAHL, with its more than 80 years of experience in explosion protection, is able to transfer the requirements of a modern UPS system into systems, which are suitable for use in explosion ...

Designed to be wall mounted, the iUPS101 UPS system is comprised of an aluminium alloy Ex"d" charger/inverter enclosure, a stainless steel Ex"e" terminal enclosure and a stainless steel iBATT100 ...

Select the appropriate power supply, uninterruptible power supply, and battery module for your application. Furthermore, our UPS modules with integrated power supply or integrated battery ...
