

Financing Scheme for Off-Grid Solar Container Fast Charging in Uganda

The Government of Uganda through Ministry of Energy and Mineral Development and Energy Credit Capitalisation Company (UECCC) has officially launched its Results-Based ...

The Program is set to make high-quality, off-grid solar systems, clean cooking solutions, and productive energy use equipment affordable to millions of Ugandans, including those in refugee ...

It will support the installation of solar mini-grids in off-grid areas, providing electricity to communities that are not connected to the national grid. These mini-grids will be particularly ...

UOMA seeks to reduce barriers to scale to accelerate off-grid energy access in Uganda. Today, about 80% of Ugandans live without access to modern energy. Bringing energy to these households has ...

Grant support is linked to verifiable outputs to help private energy companies enter the solar and clean cooking businesses and take the risk of serving consumers especially in hard to reach areas.

The Government of Uganda has officially launched its Results-Based Financing/Price Subsidy (RBF) Programme, a key component of the Electricity Access Scale-up Project (EASP).

It will largely be implemented by UECCC with one of the core mandates being the Price Subsidy Programme for Clean Energy Technologies, under which, lowering prices for off-grid solar ...

To achieve this, UECCC has partnered with 67 ESCOs and these will use market-based approaches to deliver the price subsidies to Ugandans and refugees. The companies will sell their ...

Uganda Energy Credit Capitalisation Company (UECCC) officially launched its Price Subsidy Program (Results Based Financing Facility) for Clean Energy Technologies on Thursday, ...
