

Customize your photovoltaic glass with Onyx Solar. Choose from a wide range of colors, sizes, transparency levels, and shapes to meet your aesthetic and energy needs. Tailor every detail to ...

The all-in-one curtain wall system is an extra outer shell that not only improves the building's energy balance, but offers the fabric lasting protection from weathering. The SL Modular offers a wide range ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

It is possible to configure the facade of the building using the photovoltaic modules as building material. The panels become an integral part of the building structure and as such, they have to provide the ...

Both curtain walls and spandrels from Onyx Solar elevate your building's sustainability and aesthetic appeal, providing customizable options and cutting-edge design.

It combines PV power generation technology with curtain wall technology, which uses special resin materials to insert solar cells between glass materials and convert solar energy into electricity ...

Lumyra curtain walls transform passive surfaces into active generators of clean energy, contributing to the energy self-sufficiency of buildings and reducing operating costs.

The Finnish curtain wall systems market represents a sophisticated and mature segment within the Nordic construction industry, characterized by high technical standards, a strong emphasis ...

We are pioneers in integrating personalized photovoltaic glass into the very fabric of your curtain wall, marrying aesthetic elegance with unparalleled energy efficiency.

We offer custom patterns, sizes, and glass thicknesses to meet your specific project requirements. Our PV glass components are fully customizable--without compromising power generation ...
