

Trusted across Ireland's national road network, Multisys delivers reliable, autonomous hybrid power systems with proven field performance and full in-house support capability.

Installer and Distributor of wind turbines, solar panels and other renewable energy services. Online Store with Off-grid, Energy Storage and Solar Generation Kits.

Powering Up Offshore South Coast is a project to build the new transmission grid infrastructure necessary to bring power generated by offshore windfarms from Ireland's south coast into our ...

We have put together a complete Off Grid House package 5KW which will enable you to live completely off grid subject to your local Wind and Daylight Resources.

Using the Voltsys Power Curve Control system, we can use ABB solar inverters to export power from wind or hydro systems to the grid. Our systems can also be used in off-grid applications.

AURA PCU charges the batteries from wind turbines when the wind blows and it also has the ability to charge from the electric Grid to ensure your batteries are always charged to power your building in ...

We supply off-grid accessories to complement the low voltage Wind Generators and Solar PVs. Perfect for off grid office or remote shed. For small scale wind turbine and solar panel kits we provide the ...

Inverter must be of a Grid-tie type (also known as grid interactive, and also known as synchronous inverter) and output must be pure sine wave. Inverter must be compliant with the requirements of EN ...

The Sigenergy system is also quite happy to work completely off-grid, unlike all other mainstream inverters which are grid-tied. The Sigenergy allows your panels to continue charging your batteries ...

I specialise in robust, low-maintenance off-grid systems for people who want to do things properly and avoid expensive mistakes. If your project isn't a good fit, I'll tell you -- and that's part of ...
