

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

Is a bespoke curtain wall system the cheapest option?

It's no secret that a bespoke, highly thermally efficient curtain wall system will not be the cheapest option, especially when manufactured from hardwood. Expect costs higher than aluminium or uPVC systems.

Are curtain wall and sloped glazing suitable for passive house environments?

Curtain wall and sloped glazing elements have been incorporated successfully in passive house environments. We must be careful to meet the stringent standards set down by the Passive Haus Institute of Germany for the cold temperate climate zone.

How do I contact a curtain walling company?
