

What is BW ESS & ACL energy doing in Italy?

In one of the most recent developments, it was announced last week that BW ESS and ACL Energy have expanded their joint project development pipeline for standalone, utility-scale battery energy storage systems (BESS) in Italy to 2.9GW, with a total of 14 projects to be developed across Italy's North and South electricity zones.

Which European country has the most energy storage capacity in 2024?

Italy is arguably the most vibrant European energy storage market at present. It is forecast that Italy will deploy more energy storage capacity than any other European nation in 2024, reaching a total of 7.7GWh, which will equate to more than a third of the total storage capacity deployed in Europe this year (see chart below).

Will Italy deploy more storage capacity in 2024?

Italy is forecast to deploy more storage capacity than any other European nation in 2024- the European Commission has approved EUR17.7bn of storage funding under 'state aid' rules, while the MACSE storage procurement mechanism is expected to be the catalyst for a storage surge in 2025

Who owns enermore?

In June this year, Italian energy storage system company Energy S.p.A. signed a preliminary agreement to purchase 90 per cent of the share capital of Enermore S.r.l, a company - held by German holding company, Natural Resources Holding AG- which specialises in storage system installation and maintenance consultancy, design and control.

Image of a battery energy storage system (BESS) build-out. Another facet to anchor the CIP and GC Storage partnership to develop the 2.3 GW battery storage projects across Northern ...
