

OSTAR has completed many successful projects utilizing battery storage solutions from KW to MW at home and abroad, including solar power generation, island generation and home ...

While everyone's obsessed with lithium, Jiangxi Power Grid Energy Storage Company made headlines in 2024 by deploying China's first large-scale sodium-ion battery system in Guangxi [7].

The company operates advanced energy storage factories with a total capacity of 14GWh in Jiangxi and Sichuan, China. These facilities include automated Pack, PCS, and system integration lines.

The unique geographic conditions of Jiangxi, with its abundant solar resources and progressive policies aimed at renewable energy adoption, have played a substantial role in the ...

To accelerate the development of new energy, the Jiangxi branch of China Energy has adopted a goal-oriented and problem-based strategy that features "overall leadership by the ...

JEPCC has the ability to provide the service in the entire industry chain of distributed and centralized photovoltaic power generation, including but not limited to Floating PV, Mountain PV and Desert PV. ...

Recently, JinkoSolar, one of the largest and most innovative solar module manufacturers in the world, has signed a supply agreement with Powerchina Jiangxi Electric Power Engineering Co., Ltd. to ...

The company focuses on the downstream industry chain of the photovoltaic power generation industry, with business covering photovoltaic power plant development, EPC, intelligent ...

This Jiangxi project combines solar power and storage to improve energy efficiency. It cuts costs and promotes the use of green energy, benefiting both the park's bottom line and the environment.
