

Jiangxi Judian New Energy Technology plans to invest US\$1.39 ...

Chinese manufacturer Jiangxi Judian New Energy Technology said it started construction this week of a new factory for solid state lithium batteries for electric vehicles (EVs) in Ganzhou,...

The project's comprehensive scope is underpinned by an impressive total investment of RMB 10 billion (\$1.3 billion), earmarked for the production of solid-state battery cells, pack systems, ...

The project has a total investment of 3 billion yuan, with an annual output of 1 billion Ah single large-capacity solid polymer power lithium batteries, and will support the construction of ...

The Chinese company reportedly began developing its new solid-state lithium battery factory in Ganzhou on August 8. Notably, it expects the project to hit an annual production output of ...

Jiangxi Judian New Energy Technology plans to invest US\$1.39 in a new plant for solid-state lithium batteries, but analysts say new supplies threaten to flood a market that is already facing...

It aims to produce solid-state battery cells, pack systems, and energy storage systems. The project will be completed in two phases. The first phase has an investment of RMB 1.68 billion ...

Tianjin Shenzhou Judian New Energy Technology Development Co., Ltd., founded in August 2013, is headquartered in Wuqing National Development Zone, Tianjin, with its production base in Songshan ...

In what is just the next installment of solid-state battery factory developments by a Chinese company battling for market share, Jiangxi Judian New Energy Technology broke grounds ...

Once fully operational, the new plant is expected to have an annual capacity of ten gigawatt hours of solid-state battery cells and packs for electric vehicles and stationary applications.

While the landscape of the traditional lithium battery industry is largely set, younger companies are betting on new solid-state battery technologies. A lesser-known company, Jiangxi ...
