

A vacuum solar panel lifter allows the operator to pick up panels in no time, quickly lifting and moving them in place with a simple grip on the ergonomic handle.

The 3S LIFT Ladder Hoist System is a portable solution for lifting heavy & oversized materials, like CMU/Ballast Block and Solar Panels/Modules, vertically to the rooftop hands-free.

Fast and easy assembly solar lift for lifting solar panels in a safe and comfortable way. It also helps to avoid the possible crane rental costs or public way cuts.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

Discover TAWI's solar panel lifting solutions designed to improve efficiency and safety. Optimise solar panel logistics with ergonomic, single-person lifts for inspection, order picking & container unloading.

Factories that manufacture solar cells, solar panels, or solar modules often face several handling challenges that can be addressed with the help of a lifting aid. For example, solar cells are heavy, large, and difficult to carry, ...

Alum-a-Lift is pleased to provide engineered material handling solutions to the solar, power, and energy industries. The standard chassis offers proven lifting power and allows for heavier and dynamic side loads.

Capable of lifting heavier solar equipment and materials--up to a ton in weight--and reaching heights of up to 700 feet, this hoist is engineered to handle the demands of larger-scale solar installations.

Looking for a safe and efficient way to move solar panels onto a roof? Learn how RGC's new Platform Hoists improve solar installation safety, speed, and ROI for contractors and roofers.
