

Li-S Energy has built a 2 megawatt hour (MWh) lithium sulfur battery factory in Victoria, a facility that covers everything from creating and coating cathode powders to final cell fabrication and testing.

Major construction will kick off today, and the Hub is expected to be operational by 2025 - when it will start storing excess rooftop solar and surplus energy from the grid, providing extra power to meet ...

Victoria's unparalleled access to mineral elements required for lithium-ion battery production opens enormous local manufacturing opportunities in Melbourne to enable you to service global value chains.

The Federal Labor Government has approved a new renewable energy hub in Plumpton, Victoria which will power over 1 million households. The Melbourne Renewable Energy Hub will build the largest ...

The State Electricity Commission (SEC) has marked its return with an investment to construct one of the world's largest battery projects, the Melbourne Renewable Energy Hub (the Hub), near Melton, ...

The Victorian Big Battery is a 300 MW grid-scale battery storage project in Geelong, Australia which stores enough energy in reserve to power over one million Victorian homes for 1/2 an hour.

The project is to be located on a 90-hectare site in Plumpton, 25 kilometres northwest of Melbourne and is owned by Equis Development, backed by Abu Dhabi Investment Authority and the Ontario ...

Equis and the SEC announced a funding deal on Thursday for the Melbourne Renewable Energy Hub battery project at Melton, on the western outskirts of Melbourne, that will total 600MW and 1600 MWh ...

Australia has all the resources and knowledge, now a company wants to capitalise with a massive battery plant in Victoria. Plans are afoot to build a massive lithium-ion battery cell production facility ...

Another massive energy storage project backed by Tesla's Megapack grid-scale batteries will go online this year in Australia, as the first batch of the site's final materials needed to connect the...

Australia has all the resources and knowledge, now a company ...
