

London substation solar cabinet system quotation

Do you offer packaged substations?

To complement our transformer supply, we offer fully integrated packaged substations. Utilising industry-leading solutions, we stock a comprehensive range of MV switchgear and LV cabinets that can be close-coupled to transformers or free-standing. Our options include a packaged solution fully procured by us or free-issued by the customer.

What does a UKPN substation do?

Design, supply, installation and commissioning of 33kV UKPN Substation and associated interfacing works to facilitate the connection of 4.0 MW Solar PV generation plant. Provide a complete turnkey design solution to G81 standards for ICP:

What is a package substation?

Our package substations offer a compact and versatile solution, designed to house essential electrical equipment securely. Whether you require a temporary, scalable power solution, or a backup power source, our package substations provide a dependable and efficient way to manage power distribution in various settings.

Why do substations cost more than 11kV?

1. Transformer Type 2. Voltage Level Substations rated for 33kV cost more due to insulation, clearance, and switchgear complexity compared to 11kV units. 3. Switchgear Type 4. LV Panel & Metering Adding ACBs, smart metering, and SCADA systems can increase price by 10-30%. 5. Enclosure Quality
