

Due to the need to ensure stable power supply in the large-scale access scenario of new energy, as well as the distribution and storage requirements led by centralized power stations, ...

Founded in 2000, LONGi is committed to being the world's leading solar technology company, focusing on customer-driven value creation for full scenario energy transformation.

LONGi Green Energy has moved decisively to reposition itself in the global clean-energy value chain, acquiring effective control of battery storage maker PotisEdge in a deal that marks its ...

We have experience in megawatt-scale solar-plus-storage power plants and gigawatt-scale PV power plants. We have deep experience in DC- and AC-coupled storage system architectures and are ...

Longi has reportedly acquired a stake in Suzhou Jingkong Energy, signaling a strategic push into energy storage amid rising profit pressures and heightened competition in the solar sector.

China's Longi Green Energy Technology Co. plans to buy a majority stake in a local energy storage maker, joining its domestic rivals in seeking a new growth engine as the oversupplied ...

With a total investment of RMB 1 billion, the project is fully controlled by LONGi Green Energy through its wholly-owned subsidiary Xi'an LONGi. It represents another significant ...

Chinese solar power giant Longi Green Energy Technology Co officially announced its entry into the storage sector with the launch of the Longi Energy Storage One-Stop Solution.

Energy storage can play an essential role in large scale photovoltaic power plants for complying with the current and future standards (grid codes) or for providing market ...

As global demand for sustainable energy solutions surges, photovoltaic enterprises are revolutionizing energy storage systems. This article explores cutting-edge technologies, market trends, and practical ...
