

These include 14 new projects and three amendments, featuring technologies such as wind, solar, hydro, geothermal, and battery energy storage systems (BESS). Of the 17 projects, 15 ...

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy ...

Focusing on the development of onshore / offshore wind energy and energy storage sectors in the Philippines

"Looking ahead, KEPCO and MGen intend to expand their collaboration beyond solar into other renewable energy projects such as wind and ESS (energy storage system), further diversifying the...

As Manila accelerates its shift toward renewable energy, the Manila Wind Power Project faces a critical challenge: how to store excess energy efficiently. Wind power, while abundant in coastal regions like ...

Meralco PowerGen Corp. (MGen) said Thursday that both parties are keen to also develop wind and energy storage systems (ESS) in the Philippines.

United Arab Emirates state energy firm Masdar has signed a \$15 billion renewable energy deal with the Philippines to develop solar, wind and battery energy storage systems, ...

MANILA - The Department of Energy (DOE) on Wednesday released the Terms of Reference (TOR) for the fourth round of the Green Energy Auction (GEA-4), bidding 10,478 ...

Meralco PowerGen Corp. (MGEN) and Korea Electric Power Corp. (KEPCO) are looking to expand their collaboration beyond solar energy into wind and energy storage systems to diversify ...

It owns, develops and operates geothermal, wind and solar energy plants. The company provides emerging technologies such as battery energy storage, floating solar and offshore wind.
