Mitsui Fudosan will build and operate solar power generation facilities in remote locations and transmit the energy generated in-house to Company owned properties in the Tokyo metropolitan area and ...

Power Generation Businesses Renewable Energy Business Mitsui & Co., Ltd. As of December 31, 2023

Key Points of This Release? Mega-Solar Business Using The Mitsui Fudosan Self-Consignment Scheme? Significance of This Business? Mitsui Fudosan Group's Contribution to Sdgs Secure mega-solar development sites for approx. 23 million kWh/year in a total of seven places. Cut CO2 emissions by approx. 10,000 tons per year*1. Transmit electricity to Tokyo Midtown Hibiya and Mitsui Fudosan-owned facilities in the Hokkaido and Chugoku regions. Enables transmission of renewable green electricity to offices, hotels and other places in city center... Secure mega-solar development sites for approx. 23 million kWh/year in a total of seven places. Cut CO2 emissions by approx. 10,000 tons per year*1. Transmit electricity to Tokyo Midtown Hibiya and Mitsui Fudosan-owned facilities in the Hokkaido and Chugoku regions. Enables transmission of renewable green electricity to offices, hotels and other places in city centers where it is difficult to generate solar power on-site. Real greening of electricity (renewable green electricity) that does not depend solely on non-fossil fuel energy certificates.
