

Mobile power box for industrial and mining enterprises

IE is an industry leader in portable and modular substation infrastructure, with hundreds of modular substations and utility interconnect enclosures in service in the mining, oil & gas, mission critical, and utility and ...

Elgin Power Solutions builds rugged power centers for underground mining and heavy industrial use, delivering safety, power reliability, and simplified integration.

Line Power's portable and modular substations are custom-engineered solutions designed to meet the unique demands of mining, tunneling, and dredging operations.

CHINT mobile substations provide reliable power supply across all stages of generation, transmission, transformation, and distribution. Grid operators and power generation companies focus on ensuring stable ...

Becker's portable substations are safe and reliable. You need reliable power supplies for your customers. By reducing the interface management and site works to a minimum, portable power solutions provide ...

Buy or rent portable power boxes, power distribution centers, industrial light towers, and adaptable work lights - all crafted to enhance safety and productivity.

Eaton's complete line of heavy duty portable and temporary power devices are built tough to deliver safe, reliable power for the most demanding commercial, industrial, and hazardous area applications.

Discover how a Custom Substation by Becker provides a reliable, mobile power source for industrial needs with efficiency, flexibility, and safety.

Unlike traditional fixed substations, this mobile solution is engineered for frequent relocation, compact spaces, and extreme operating conditions such as dust, vibration, and humidity.

IMG designs and manufactures various portable power distribution equipment used to convert incoming power in order to supply specific voltages to electrical equipment at site.
