

Modular Energy Storage Cabinet with Constant Temperature and Humidity in India

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and ...

Temperature and humidity control system: 7-inch touch screen, the system has the functions of temperature control, humidity control, timing and over-temperature and over-humidity alarm; It is ...

Continuous improvement in the design of constant-temperature (and humidity) cabinets now with remote monitoring and control via PC Ethernet connection and web browser. The line-up consists of six ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

Humidity is achieved by generating steam by immersion type water heater in water reservoirs & its subsequent condensation in the circulating air. Temperature is controlled by a reliable imported ...

The humidity inside the cabinet exceeds the limit, the constant humidity module is activated, and the humidifying pad is activated, with a lifespan of more than 5 years

WEIBER now brings high quality temperature and humidity control chamber with large capacity that can meet every customer's requirement, custom designs are also available.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.
