

National Subsidy for Solar Power Generation Scam

The "2023 Solar Incentive Program" is an empty promise. American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free...

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading...

While you are browsing solar power companies, one of them may ...

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

Fueled by a drop in solar panel costs, an urge to fight climate change, the availability of real but sometimes confusing government incentives and a desire to save on rising energy bills, solar ...

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. Here's what you should ...

Many homeowners never get any solar equipment installed; those who do often get shoddy work. The criminals are leaving unsuspecting homeowners with massive debt; many victims ...

How to avoid burning a hole in your pocketbook and protect yourself from consumer scams about free solar panels.

Beware of misleading social media ads and sales pitches promising "free" solar, guaranteed savings, or special government payouts--these are major red flags. Compare quotes ...
