## National purchase price for solar power generation

LevelTen Energy, a power purchase agreement (PPA) marketplace operator, released its Q4 PPA Price Index report, noting that solar PPA prices increased by 3.3% in the United States in Q4.

The average cost of solar panels ranges from \$2.50 to \$3.50 per watt installed, with most homeowners paying between \$15,000 and \$35,000 for a complete system before incentives.

The average solar power purchase agreement (PPA) price in North America remained constant between the third and fourth quarters of 2024, holding steady at US\$56.76/MWh.
