

What is battery Norway?

Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery supply chain. Battery Norway will closely follow the EU's battery strategy and be the Norwegian "mirror" advising the authorities. Documents and downloads:

How will battery Norway follow the EU's Battery strategy?

Battery Norway will closely follow the EU's battery strategy and advising the authorities. Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery supply chain.

Can Norway become a global leader in the battery industry?

According to international experts, Norway has everything it takes to become a global leader in the battery industry. No other new, green industry can create as much welfare. The setting is quite similar to how Norway built global leadership from scratch in the oil business. Sign up with your email address to receive news and updates.

Can mid-Norway become a leading player in sustainable battery production?

"This significant step in the project shows that the energy transition is underway in Mid-Norway and confirms the region's potential to become a leading player in sustainable battery production," says Arne Fredrik Lånke, CEO of Elinor Batteries.

Norway is well positioned to contribute to this industry, with extensive experience in land and maritime electrification, access to renewable energy and raw materials, deep material and ...

Innovation Norway has announced granting Morrow Batteries ASA ("Morrow") a loan facility of NOK 1.5 billion. The loan facility will be available for Morrow to fund the scale-up and development of battery ...

Innovation Norway has announced granting Morrow Batteries ASA ("Morrow") a loan facility of NOK 1.5 billion. The loan facility will be available for Morrow to fund the scale-up and ...

A giga-scale factory for battery cell production located in Mid-Norway. Utilizing renewable energy, we are spearheading the development of a sustainable and competitive Norwegian industry focused on ...

Norway: your partner in developing the battery value chain Norway is home to a circular battery ecosystem encompassing expert raw materials processing and sustainable battery cell production as ...

Elinor Batteries launches plans for a giga-scale battery factory near Trondheim, Norway. The first production of sustainable batteries from Elinor, based on renewable energy, is set to ...

Norway Energy Storage Lead-Acid Battery Factory

October 21, 2025 - Elinor Batteries has been awarded the contract to supply battery solutions for three large-scale battery parks in Southern Norway, boosting energy storage capacity, reducing grid costs, ...

This significant step in the project shows that the energy transition is underway in Mid-Norway and confirms the region's potential to become a leading player in sustainable battery ...

STOCKHOLM (Reuters) - Norway has granted start-up Morrow Batteries a loan facility of 1.5 billion crowns (\$134 million), government agency Innovation Norway said on Tuesday. The ...
