

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage ...

Designed for optimal performance, safety, and scalability, they ensure seamless integration with BESS systems. Power your business with reliability and innovation.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

This containerized BESS solution targets energy developers, independent power producers (IPPs), EPC firms, and government agencies seeking turnkey energy storage for solar hybridization, off-grid ...

Our dual bay module increases usable energy and can scale up to 48 cabinets in on and off-grid connected applications. These systems are designed with the same MPPT technology and leading ...

Complete off-grid energy independence. Cabin, remote home, or sustainable living solutions with reliable battery storage and solar power.

A BESS cabinet (Battery Energy Storage System cabinet) is no longer just a "battery box." In modern commercial and industrial (C&I) projects, it is a full energy asset --designed to reduce electricity ...

Seamlessly switching between grid and off-grid modes, it allows for flexible configuration of photovoltaics, batteries, diesel generators, and loads. This versatility caters to multi-scenario ...

Supports On/Off Grid CX-CI002 lithium battery storage cabinet can be customized on-grid/off-grid operation mode, provides UPS function, and can be flexibly expanded.

Individual pricing for large scale projects and wholesale demands is available. up power supply.
