

Outdoor integrated watt-level small base station

eNodeB JRC eNodeB has been specifically designed for Private LTE. It is a Best-in-Class base station in the market. The design is self-contained and small yet powerful. The eNodeB is ruggedized for ...

Part of the Emerald Cellular Product Range (4G & 5G LTE), the ...

This compact base station integrates the 5G baseband module and radio module, pre-installed the SageRAN's Engine(TM) 5G L2 L3 software, to provide a high performing 5G wireless access network.

Hytera's small one-box base station product has an integrated design with small size and easy installation, which can greatly reduce the customer's CAPEX and OPEX.

In contrast, Soetek's outdoor power base station solution reduces the installation and debugging time by nearly 40% per station, while failure rates drop by over 60%. Its excellent lightning ...

Part of the Emerald Cellular Product Range (4G & 5G LTE), the CableFree Advanced 4G and 5G LTE SDR Small Cell Base Station Outdoor is an integrated system capable of handling 4G or 5G LTE ...

The need to increase the number of base stations to provide wider and more dense coverage has led to the creation of small cells. Small cells are a new part of the 5G platform that increase network ...

With its small and flexible modular design, MTS2 dramatically reduces installation costs and makes site acquisition easier than ever. Excellent front access and a fan-free cooling capability ...

The ultra flexible MTS2 meets a growing demand for small, deployable base stations that ensure site acquisition and installation is as easy and economical as possible.

Description of the product Compared with the traditional macro station, the Small Cell BS features much smaller volume, transmitting power and coverage. The statistics show that the vast majority of data ...
