

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are pre-assembled ...

Deye outdoor cabinet is an energy storage device designed for outdoor environments. It has an IP65 high protection level and corrosion-resistant materials, and is suitable for harsh conditions such as high ...

Intelligent liquid cooled technology prolongs battery life Modular design supports parallel connection and system expansion IP54 outdoor cabinet and optional C5 anti-corrosion

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.

With IP54 protection, UV-resistant coating, and sealed cable entries, TOPBAND outdoor battery storage cabinets thrive in sun, rain, and coastal salt spray environments.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids.

Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and lead-acid batteries, seamless BMS communication, optional air-cooled/liquid-cooled battery systems supporting up to 8 strings ...

Shop premium solar outdoor cabinets with IP54-IP67 protection, liquid/air cooling, and 100kW-2MW capacity. Ideal for industrial, commercial & utility-scale energy storage systems.

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.

Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.
