

With intelligent air cooling, IP55 protection level, and optional WiFi/GPRS remote monitoring, you can rely on this system for optimal performance and safety. Stay ahead of the curve with our energy ...

Fully compliant with mandatory protection standards for terminal circuits in charging applications, the XL-21 ensures maximum safety and reliability. Tailored for optimal performance, it's the ideal choice for ...

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.

Provide the total AC power solution for small companies or offices. Our commercial energy storage solutions are designed to meet the specific energy needs of smaller enterprises, ensuring reliable ...

Comprehensive cell voltage monitoring + aerosol fire suppression system + 2-hour fire protection design. IP55 protection rating, adaptable to a wide temperature range of -20°C to 50°C, with high seismic ...

It is suitable for scenarios like photovoltaic grid-connected systems, energy storage power stations, and new energy charging piles, serving as a "power hub" between PV inverters and the grid to ensure ...

Discover our outdoor power supply cabinet, featuring integrated smart micro data center and telecom battery storage. Prices from \$18 to \$1000, ideal for wholesale telecom equipment distribution.

Our Hybrid DCPS is a standalone IP55 outdoor enclosure with an AC-DC power distribution and management system. Its built-in intelligence optimizes the utilization of sources like Renewable ...

Introducing VoltHub, a world first solution to charging lithium-ion (Li-ion) batteries safely. Its an all-in-one, indoor and outdoor use, IP55 rated unit that constantly and proactively keeps fire risks at bay, and ...

With an IP55-rated enclosure, built-in UPS modules, breaker protection, and dedicated battery space, Citadel ensures continuous operation for telecom, traffic, and CCTV systems under extreme conditions.
