

Senegal Grid-side Energy Storage Power Station Project

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

Independent power producer, Africa REN, has commissioned a 20MW of solar PV power plant with a 10MW/20MWh battery energy storage system (BESS) in Senegal. Named the Walo ...

designed for frequency regulation and to meet local energy needs in the event of grid loss. Delivered on time, the Bokhol site is already connected to Senelec's grid

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Senegal opens its first solar power plant with battery storage in Saint-Louis, strengthening grid stability and clean energy supply.

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

The Walo Storage facility, commissioned on July 14th, represents West Africa's first solar power plant integrated with battery storage specifically for grid frequency regulation.

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery installation of its ...

Senegal has inaugurated a solar power plant equipped with battery storage in the northern Saint-Louis region, marking a milestone in the country's efforts to strengthen grid stability ...

Hybrid project combines 10 MW battery storage with an existing 16 MW solar power plant. Africa REN has commissioned the 10 MW 20 MWh Walo Storage battery energy storage ...
