

Tunisia has a target of generating 30% of its electricity from renewable energy sources by 2030. The south of the country, where our Adam and Tataouine power plants are located, is an ideal area for ...

French renewable energy company Voltalia has successfully secured the development rights for the 132MW Wadi solar project in Tunisia. The project is located in the Gabès region of ...

UAE-based renewables developer AMEA Power has commissioned a 120MW solar PV plant in the central Tunisian governorate of Kairouan, the country's largest operational PV project.

Solar project contracts were awarded earlier this week following the signing of agreements between Tunisia and partners from Norway and Japan for the construction of the plants. ...

Explore the solar photovoltaic (PV) potential across 46 locations in Tunisia, from Bizerte to Gabès. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to ...

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also ...

Anglo-Tunisian group SoleCrypt announced plans for a 60 MW PV plant in Tozeur, part of a broader initiative to connect eventually to the Medusa submarine cable, enhancing Tunisia's energy...

Founded in 2013, Green Power Company is a company specialized in photovoltaic solutions, dedicated to meeting the renewable energy needs of both individuals and businesses, with a particular focus on ...

Average global horizontal irradiation is between 4.2 kWh per m²; per day in the north-west of Tunisia and 5.8 kWh per m²; pd in the extreme south. Given these favourable conditions, the productivity of solar ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW.
