

Where to buy solar submersible pump in Pakistan?

Pakistan - Shop for Best Online at Daraz.pk Wide Variety of solar submersible pump. Great Prices, Even Better Service.

What is a solar water pump?

A solar Water pump is a normal pump with an electric motor. To generate the electricity needed for the engine on site, a photo voltaic panel converts the sun's energy into a continuous electric current (12 or 24V in general) that can be stored in a solar battery bank.

Do solar water pumps need a DC motor?

Since photo voltaic panels generate a continuous electric current, a solar water pump equipped with a DC motor must be used. Small-scale pumping irrigation is one of the most interesting uses of solar energy since the maximum intensity of solar radiation is generally the period of the most important pumping water requirements.

Solar water pumps are mostly used in areas where there is unreliable electricity or where grid electricity is unavailable. Solar water pumps are environment friendly and cost effective mean of pumping ...
