

IGOYE is one of the leading Solar Pump Inverter manufacturers in the market. Our solar pump inverters are widely used in various applications, such as forestry watering, domestic water, agricultural irrigation, and ...

Our solar powered water pumps offer efficient, off-grid performance with options for agricultural, residential, and commercial use.

BISON is a solar surface water pump manufacturer and factory with many years of production experience, providing reliable solutions for farm and commercial use.

Solar water system pump inverter with the solar pump controller automatically start or sleep only after being connected to solar panel without any parameter setting.

Our solar pump inverters are designed to convert solar power efficiently to run water pumps, making them ideal for agricultural, irrigation, and water supply systems.

Compared to diesel generator pumps, our solar pump inverter are environmentally friendly, with a long lifetime and low maintenance costs. It is independent from the grid and produces no pollution or noise. Typical ...

Schneider Solar Water Pump Inverter adopts the dynamic technology and motor control technology, and is suitable for AC water pumps with prompt response, high efficiency and stable performance.

Solar pumping system is a series-parallel absorb sunlight radiation energy through solar panels and convert it into AC power by inverter to drive centrifugal pump, irrigation pump, axial flow pump, mixed-flow pump of ...

VEICHI, one of the leading solar water pumping inverter manufacturers, provides SI32, SI23, SI21 and SI30 high performance and eco-friendly automatic solar water pump controller at wholesale price.

With advanced technology and a professional R&D team, we are committed to providing customers with high-quality and intelligent water pump controller products. We have won a good reputation in the markets of the ...
