

Solar panels for home use direct sales from manufacturers

How do I buy solar panels?

There are three ways to purchase solar panels: Home and business owners typically purchase solar panels through solar companies, which are certified to deal and install products from top manufacturers. These solar installers then plan and execute the installation, and many monitor the system afterward for proper functionality.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert DC to AC power - which is the type of electricity used in homes. They also provide net metering capability. Batteries can store excess energy when rates are low and use it during peak hours, optimizing cost savings.

How much do solar panels cost?

Solar system prices vary, depending on the type of solar panels, manufacturer, cell size and wattage output. Our solar panels cost between \$300 to \$400 per panel, which is a competitive price considering the brands' top-tier quality and high standards. Some solar panels can run as high as \$600.
