

Solar power generation project was stopped

The Trump administration has cancelled Esmeralda 7, a large-scale solar project in southern Nevada -- a move critics say undermines the nation's clean energy transition.

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

An enormous solar project planned for the Nevada desert was canceled last week while awaiting final federal approvals, an ominous sign for renewables development on public lands under ...

The Trump administration's cancellation of the largest solar project in the United States has sparked confusion and concern among Republicans and Democrats alike.

More than \$14 billion in clean energy investments in the U.S. have been canceled or delayed this year, according to an analysis released Thursday, as President Donald Trump's pending megabill has ...

At least 35 commercial-scale solar power projects that were under at least preliminary review by BLM when President Donald Trump took office still await action.

The Trump administration has canceled the Esmeralda 7 solar project in Nevada -- a sweeping, multi-developer clean energy plan that would have been the largest solar installation in ...

One of the most ambitious solar projects in history is quietly heading for shutdown after just a decade of operation. The Ivanpah Solar Power Facility in California's Mojave Desert was once...

Our analysis reveals that 1,891 power projects with a combined 266 GW of generation capacity have been canceled in 2025 --equivalent to roughly one-quarter of America's entire current electricity ...
