

Sofia Airport starts construction of a 5 MW solar power plant to support its 2036 decarbonization goal. The project will provide clean energy and reduce emissions.

In conclusion, despite occasional adverse weather conditions that may affect solar power generation efficiency in Sofia, its geographical position within the Northern Temperate Zone makes it ...

We provide residential solar, battery storage, and custom solutions for homes, built to last with quality and backed by decades of solar expertise.

Students use SOLAR to register for classes, print schedules, view and pay bills, update personal contact information, view transcripts, and submit student employment timesheets.

SOF Connect signed a contract with Hydroenergy Company AD (HEC) for the construction of a modern photovoltaic power plant with a capacity of nearly 5 MW at Vasil Levski ...

It is planned in Sofia, Bulgaria. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage.

Citizens and businesses in Sofia will be able to invest in a photovoltaic system on a school rooftop as part of the first energy community. It would be a partnership between the city's ...

There are two main types of solar energy technologies--photovoltaics (PV) and concentrating solar-thermal power (CSP). On this page you'll find resources to learn what solar ...

Solar energy is radiation from the Sun that is capable of producing heat, causing chemical reactions, or generating electricity. The total amount of solar energy incident on Earth is ...

We break down the seven best solar installers in Peoria, AZ. Our ratings are based on our expert reviews and reviews from homeowners who have already gone solar in Peoria.

We specialize in designing, installing, and maintaining high-quality solar power systems for residential and commercial properties. Our services include solar panel installation, solar battery storage, ...

Sofia University "Acad. Emilian Stanev" is being implemented with the support of the Sofia Municipality, the "Vitosha" district, private and legal entities. It envisages the construction of a ...

Solar panels work through the photovoltaic (PV) effect. When sunlight hits the panels, it creates an electric

current that is first used to power electrical systems in your home.

SOF Connect signed (19-Sep-2025) a contract with Hydroenergy Company AD for the construction of a 5MW photovoltaic power plant at Vasil Levski Sofia Airport. The facility will feature ...

Sofia solar project I is an operating solar farm in Sofia, Bulgaria.

An introduction to solar energy and types of solar energy conversion technologies including solar thermal and solar photovoltaics (PV).
