

# Sudan energy storage power station electricity price adjustment

What is the price of electricity in Sudan?

Sudan, September 2022: The price of electricity is 0.009 U.S. Dollar per kWh for households and 0.045 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How many people in Sudan have access to electricity in 2021?

Although power generation has continued to grow in the post-independence era, only about 62% of Sudan's population had access to electricity in 2021, according to the latest estimates from the World Bank. However, urban populations have substantially more access (84%) than rural populations (49%).

Why does South Sudan have a low electricity rate?

South Sudan has one of the lowest electrification rates in the world; only 8% of its population had access to electricity in 2021, according to the latest estimates from the World Bank. Those connected to the power network experience frequent blackouts or forced load shedding, which makes standby generators necessary to meet electricity needs.<sup>18</sup>

Is Sudan planning to build more thermal power units?

The government is reportedly planning to build additional thermal power generation units at Garri (El-Jaili) and at Port Sudan that could collectively provide almost 1 GW of generation capacity, but the completion date for construction of the additional power units is unclear.<sup>15</sup>
