

Swiss air-cooled energy storage system manufacturer

Green-Y Energy AG specializes in sustainable energy solutions integrating innovative compressed air technology to store and generate electricity, heat, and cold.

Detailed info and reviews on 10 top Energy Storage companies and startups in Switzerland in 2026. Get the latest updates on their products, jobs, funding, investors, founders and ...

Founded in 2020 and headquartered in Hasle bei Burgdorf (canton of Bern), Green-Y Energy develops and produces innovative compressed air energy storage systems for buildings and ...

EVB deployed an all-in-one Air Cooling Energy Storage System in Switzerland, delivering 115 kWh LFP storage, 50 kW output, $\geq 90\%$ efficiency, and durable IP55 + C3 protection.

ALACAES is a privately held Swiss company that is developing an advanced adiabatic compressed air energy storage (AA-CAES) solution for large-scale electricity storage.

For the first time, a pilot project called Alacaes is developing a new system that stores electricity in the form of compressed air in the Swiss Alps, with the support of the Swiss Energy Ministry.

Green-Y, a Swiss start-up founded in 2020, has developed a compressed air power storage unit that can heat and cool, combining the functions of a battery and a heat pump in a single ...

The company, which specialises in compressed air energy storage and is based in Hasle near Burgdorf, intends to use the additional capital to further optimise its innovative storage technology and drive ...
