

Here are eight critical red flags that signal potential fraud when shopping for solar panel systems.

Legitimate solar savings come from reduced electricity bills, not from special programs or guaranteed tax payouts. You can be an informed solar shopper and increase your chances of ...

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

How the scam works: People posing as solar installers or utility employees call or come to your home and offer free solar panels through made-up government programs or incentives. ...

Con artists use misleading sales tactics and lies to trick homeowners out of money and personal information. If you've received an offer for "free solar panels," it could be a scam. Always...

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer. If something you see or hear from a ...

POWER To start using solar power for your home, consider your options. You might have choices that include buying or leasing a solar energy system, signing a power purchase agreement, or ...

Not all door-to-door solar sales are considered scams, but what they pitch should be taken with a grain of salt. Going solar is expensive and shouldn't be an impulse decision, no matter how...

Solar panel scams come in different forms, each with its own set of deceptive tactics aimed at taking advantage of homeowners. One of the most prevalent solar scams involves misleading ...

Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. While there are still many honest and reliable solar panel companies on the ...
