

WACT, owned by APM Terminals, is the first greenfield container terminal built under a public-private partnership in Nigeria. Its decarbonisation strategy is in line with the Group's commitments.

The photovoltaic (PV) container market is experiencing robust growth, driven by the increasing demand for decentralized and easily deployable renewable energy solutions.

Norwegian PV developer Scatec ASA has switched on a hybrid solar and battery storage facility in the Northern Cape province of South Africa. A 540 MW solar and 225 MW/1,140 MWh battery storage hybrid project has ...

Gitega s largest photovoltaic energy storage project Summary: The Gitega energy storage project marks a pivotal step in Africa's renewable energy transition. This article explores the project's significance, the role of ...

There has been a major pick-up in solar panel imports into Africa over the last 12 months - a shift that is likely to impact almost every country on the continent.

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of 20+ containers creating ...

The global utility-scale photovoltaic market is experiencing significant growth in Southern Africa, with demand increasing by over 400% in the past five years. Large-scale solar farms now account for approximately 70% ...

Serving residential, commercial, industrial, and government clients across South Africa and African markets with advanced photovoltaic storage and BESS solutions.

With global investments exceeding \$12.7 billion in 2024 alone, PV container production isn't just about manufacturing energy systems - it's about creating adaptable power infrastructure for our evolving energy ...

In Kigali, Rwanda's bustling capital, photovoltaic (PV) container systems are becoming a game-changer. These mobile solar units combine modular design with high-efficiency energy storage, addressing two critical ...
