

Explore how Trinasolar powers a net-zero future in Australia & beyond with our solar modules, tracking & mounting systems, and energy storage solutions.

Trina Storage, bringing 26 years of solar experience comes with the vision to be the world-leading PV and smart energy solution provider. We aim to lead the energy transition through storage.

Trinity Batteries offers cost-effective energy storage solutions without compromising on quality, making sustainable technology accessible to all. At Trinity Batteries, we are committed to revolutionizing the ...

With EV-grade battery cells and comprehensive electrical safety architecture, Elementa 3 integrates performance, reliability, and intelligent operation into a single, next-generation liquid ...

Trina Storage, the leading global energy storage product and solution provider, has once again secured its position as a Tier 1 energy storage manufacturer for the second quarter of 2024, ...

Trina Storage Elementa is a smart, large scale modular energy sites. Fully integrated utilising our proprietary, by our dedicated Battery Management System (BMS), generating Grid asset which has ...

Since 2015, Trinasolar has strategically expanded into energy storage, building full-stack capabilities from cells and battery packs to AC-side systems, making storage a strong second growth ...

Trina Storage, the leading global energy storage solution provider, announces the highly anticipated global launch of Elementa 2 - an advanced, flexible and high efficiency Energy Storage System (ESS).

Integrity and reliability are the lifeblood of enterprise development, and winning with quality is the secret of Trinasolar to become the world's leading photovoltaic product manufacturer and solution provider.

Founded in 1997, Trina Solar Co., Ltd. (stock symbol: Trinasolar; stock code: 688599) is mainly engaged in PV products, energy storage, system solutions and digital energy service.
