

The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power plant integrated with ...

The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build a 100MWp solar PV plant, integrated with a 250MWh ...

It leads regional execution of solar and battery energy storage projects with a focus on Uganda, Kenya, Tanzania, and Rwanda. Astrovolt provides end-to-end capabilities including feasibility studies, ...

A major solar-plus-storage has been approved by the Government of Uganda, with the project set for Kapeeka Sub-County, Nakaseke District, approximately 62 kilometers northwest of ...

Uganda has approved a major 100 MW solar project paired with a 250 MWh battery storage system--a landmark initiative for solar energy in Uganda. This ambitious project is designed ...

The Government of Uganda has issued a Gazetted Policy Direction authorising the development of a 100-megawatt-peak (MWp) solar PV plant with 250 megawatt-hours (MWh) of ...

Uganda has authorized Energy America and EA Astrovolt to develop a large-scale solar and storage facility as part of its 1 GW renewable rollout.

The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 MW solar photovoltaic power plant integrated with 250 MWh of battery ...

In a major step toward transforming its energy sector, the Government of Uganda has approved the development of a 100-megawatt (MW) solar photovoltaic power plant coupled with a ...

A Power Purchase Agreement (PPA) will be negotiated with Uganda Electricity Transmission Company Limited. Phase I of the Kapeeka project is expected to serve as a foundation ...
