

The hydrology and stormwater management benefits of green roofs (GRs) when integrated with photovoltaic (PV) arrays are currently not well understood. This study is the first quantitative study of an ...

The Alumasc BluRoof is a single-source, fully warranted waterproofing and sustainable drainage solution designed to alleviate flood risk by attenuating stormwater via controlled discharge over a 24-hour period at ...

To help ensure installers are properly educated on codes, standards, and best practices, IronRidge offers a full range of in-person and web-based training programs to help ensure every rooftop installation is 100% ...

If an irrigation system is provided on the roof, it is important not to over-irrigate the vegetation under and directly around the PV panels to avoid excessive plant growth and potential shading issues.

Nophadrain has developed water retention systems for extensive green roofs, bio-solar roofs, intensive green roofs and even trafficable roofs. The basis of the systems are the various ND WSE Water Retention ...

The PV-SMaRT field testing and modeling identified four key elements of solar development that have a large impact on managing stormwater and improving water quality outcomes:

Therefore, exploring the waterproofing of photovoltaic roofs is especially important. This can be achieved by understanding roof design principles and incorporating appropriate waterproofing treatments based on the ...

With the SOPRASOLAR® and Flagosolar® ranges, turn your roof into a profit centre. Lightweight, attractive and strong, these solutions are ideal for new build and renovation work, to take advantage of the large surfaces ...

The invention discloses a solar photovoltaic waterproof roof structure device in the technical field of BIPV-photovoltaic roof structures, which comprises a Y-shaped support frame, a...

After all, these structural, waterproofing and BOS considerations ensure that roof-mounted PV systems do not blow away or inadvertently cause a roof to collapse or leak water. Arguably, the most important part of a C&I ...
